

Project done, and Welcome back IBAG

Thursday, 29 January 2009

After a large project for Key Systems, involving CNC programming for H-FÅ¶nstret AB and software testing for Germatech AB, bitBrain Studios is now available for large and small web development clients.

Å

We were alsoÅ happy to again get work from IBAG Scandinavia. This time, it was a small update to the new IBAG Scandinavia website, in time for their ad in a Swedish industry magazine. We added 3 new product pages, tuned some code for search engines, and made miscellaneous small changes.

Have a look at the site, and don't hesitate to call or email us if you need work done on yours or your company's website!
